

ARMSS
ADVANCED REMOTE MANAGED SECURITY SERVICES INC.

Your Technology-based Security Manpower Company

COMPANY PROFILE

ABOUT US

ADVANCED REMOTE MANAGED SECURITY SERVICES, INC. (ARMSS) was established in November of 2014. It is run by driven, dynamic management and staff whose collective experience in terms of providing protection of life and security of property have sprung the institutionalization of a technology-based manpower company comprised of security guards, CCTV and Alarms Operators, and supporting Motorized Technical Response Team (MTRT).

The idea of putting up a technology-based security services company was envisioned by a group of individuals with a fervent desire to make use of their expertise in creating a business that will symbolize fair and just service to its clients, values that its employees likewise embody.

Our manpower organization is known for providing personalized professional services. Our capability to adapt to our client's needs is the key element that has established us as a staple security service provider in the Philippines.

MESSAGE FROM OUR PRESIDENT

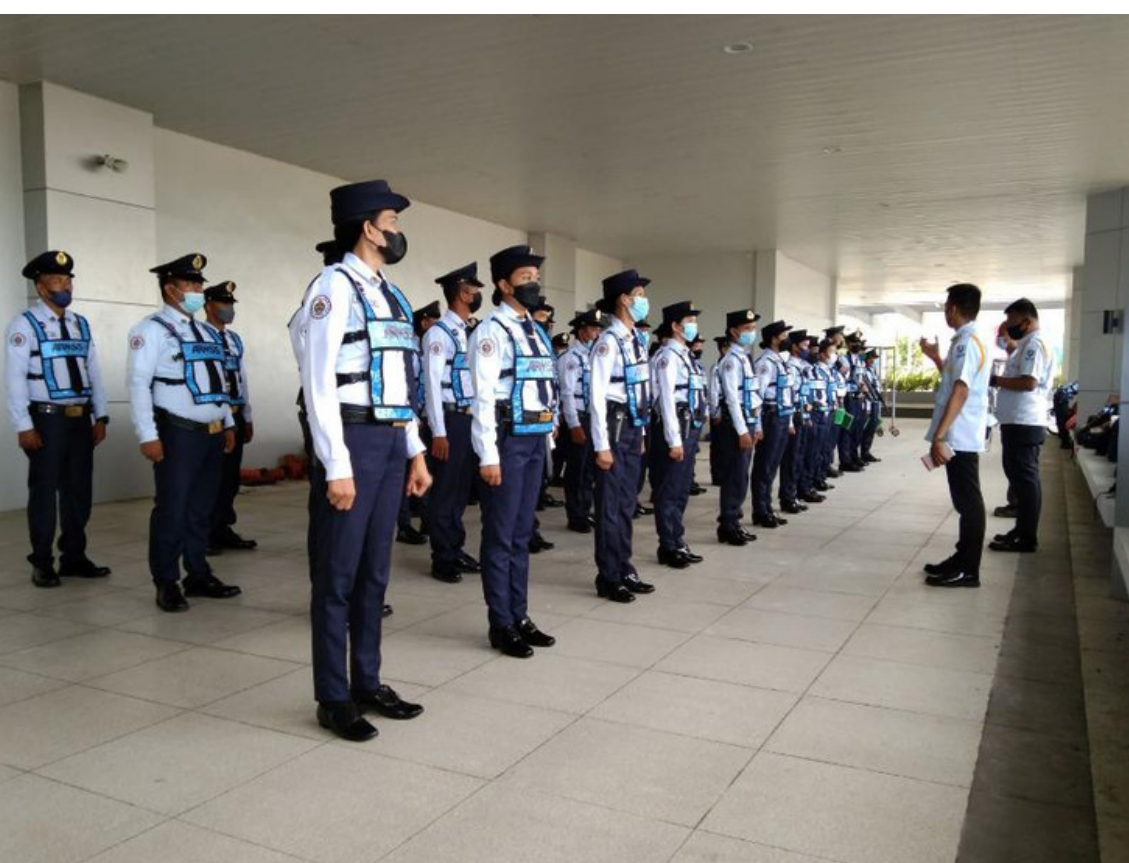

"Galvanized by a strong sense of duty to respond to the growing crises that pose public threat in the country, we continuously strive to provide the most appropriate security solutions that aim to safeguard our clients.

Armed with the confidence that our clients have in us, we are relentless in realizing a carefree world that is conducive to a living environment that is both protected and secured."

LT GEN OSCAR T LACTAO, AFP (RET.)

President

OUR TEAM

We are composed of duly accredited security professionals who have ample experience in various security disciplines such as Guard Force Management, VIP/Executive Protection, security surveys, audits, project management, special projects, case investigations, and asset/property protection.

Moreover, our team boasts a roster of former Military, Police, and Reservist Officers who are Board Certified Security Professionals (CSP), by Philippine Society for Industrial Security (PSIS) and Advanced Security Management (ASM). We are Certified and Graduates of Basic Occupational Safety and Health (BOSH) and Construction Occupational Safety and Health (COSH), Certified Crowd and Emergency Managers (CEM), Emergency Management Specialist (EMS), and Certified Managing Heads for Environment Compliance.

We have extensive exposure and experience in security management nationwide, particularly in Manila, Region IV-A, Region V-Bicol, Cebu, Davao, and Cagayan De Oro, fully capable of catering qualified, professional, and competent Security Personnel to clients in the fields of Estate, Commercial and Residential Developments, Airports, Schools, Hotels, Resorts, BPO/Call Centers, Major Industrial and International Construction Firms, Building and Facility Management, and Advisorial and Consulting for Critical Projects in the country.

OUR VISION

To be a highly competitive security services provider reckoned in the country.

OUR MISSION

To deliver enterprise security solutions and customized guard force management for the clientele.

To integrate security technology advancement and to ensure dynamic solutions for both physical and technology security.

OUR CORE VALUES

DISCIPLINE

1

We are motivated by our heightened sense of responsibility to deliver the best service to our clients.

INNOVATION

2

We are passionately driven in search of dynamic ways to suit our clients' needs better.

INTEGRITY

3

We adhere to the moral high ground and embody what is fair and just in fulfilling our duties.

PROFESSIONALISM

4

We yield the competence that is required of us in constant pursuit of excellence in our chosen field.

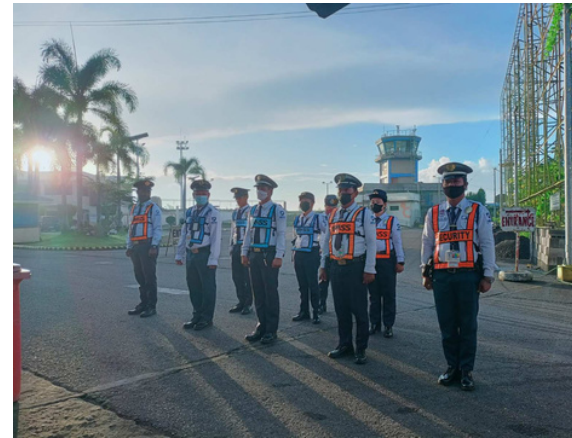

OUR CLIENTS

We have deployed over six hundred forty (640) Security Guards/Personnel and have extended our operations nationwide in a span of 8 years. To date, we have successfully served the manpower requirements of small, medium as well as large local and multinational companies in various industries. The following are our valued clientele with whom we have strengthened business relations:

OUR SERVICES

As a technology-based security manpower company, in partnership with Annex Digital, Inc. (ADI), we train professional and dedicated Security Guards, Alarm and CCTV Operators, and Motorized Technical Response Teams to address today's issues and risk management.

SECURITY MANPOWER

We deploy Certified Security Personnel, trained with basic military discipline and competent with moral principles who have been screened according to the R.A. 5487 "Private Security Agency Law".

CCTV AND MONITORING SPECIALIST

We are trained to monitor the activities that happen in the remote areas thru CCTV and Alarm monitoring station in the ARMSS command center.

STRATEGIC SECURITY SURVEY AND ASSESSMENT

We determine the degree of protection required and substantiate the level security personnel individual skills to strategically leverage the proper implementation of safety and security.

MORE ABOUT OUR SERVICES

PRE-EMPLOYMENT BACKGROUND INVESTIGATION

We dutifully conduct past employment, school, and neighborhood verification to detect hiring risks, check credential authenticity, and scan community records respectively for safety and security reasons.

ASSET PROTECTION MANAGEMENT

We direct and set guidelines for the internal property, regularly training and deploying security personnel based on the best practices of the industry.
